September 2016 Release Notes

Published on 02/01/2017

New Features

- Attach proof reference files during proof upload, files available from:
  - Proof Info page
  - Proof Invitation email
  - Review Environment - Message to Reviewer
  - Review Environment - Previous Versions
- WebDAM 3rd-Party Integration
  - Users can use this integration to upload assets for review faster instead of spending time transferring files to and from their hard drive.

Product Improvements

- Job Launch Reference File Improvements:
  - Files are no longer converted upon upload
  - Files are automatically brought over into the project files
  - Files carry over into job launch request duplicates
  - Files are available on each page of a request
  - File size, extension and load bar for reference are now displayed when uploaded to a request
