

# February 2017 Release Notes

Published on 05/04/2017

## New Features

### Review + Approval

- New Sample Review environment
- Page Navigator displays pages with comments and annotations
- Interactive Product Tutorials

## Product Improvements

### Review + Approval

- Page Navigator displays the aggregate status of each asset in read-only mode
- Users can now zoom in and out on assets from 5% to 1000%
- Users can now zoom and resize video assets
- Zoom controls have been moved to the asset (lower) section of the blue header bar
- Page navigator has been moved to the asset (lower) section of the blue header bar
- Save & Exit/Submit Review Button has been moved to the proof (upper) section of the blue header bar
- Asset Info indicator only appears when there is unique asset info available (if enabled by Account Administrator)
- Instructions modal only appears for reviewers when there are instructions to display

## Bug Fixes

## inMotion

- Proofs placed On Hold in Review + Approval will allow file downloads from the Proof Info page
- 'Requested By' filter in the Project Workspace will now sort alphabetically
- Contacts added to report subscriptions should now receive appropriate emails
- Proof reference files will now retain all files when releasing a new version of an existing proof
- Job Launch Manager Workspace will now allow users to set the page view as default when editing the 'Project Filter Group' field
- Custom Fields will no longer show the text *Undefined Value* in Account Settings
- Job Launches that are edited after being Released to Project will no longer show an 'Actions Needed' status
- Asset files can now be uploaded for review from a DAM in Review + Approval
- Project Names will now wrap on the Project Workspace

## Review + Approval

- Reviewers invited to a proof with multiple versions will now have access to all versions of the proof
